

PROBLEM | 97% of amateur crypto investors lose their money on trading because of a lack of market expertise.

SOLUTION | A platform where amateur investors can sync their accounts with the accounts of the best traders, benefitting both parties.

CINDX | The blockchain ecosystem for investors, traders, managers, and vendors.

INVESTORS automatically trade their assets once they sync their wallets together with a manager's.

TRADERS use their trading experience to help investors and earn profits.

MANAGERS multiply their assets with success fees paid by investors.

VENDORS provide and sell trading tools that can benefit all users of the platform.
