

PROBLEM | 97% of amateur newcomer crypto investors lose their money on trading because of the lack of expertise on the market.

SOLUTION | We give investors expert insight by syncing their accounts with those of the best traders on the market for the benefit of all involved.

CINDX | The blockchain ecosystem for Investors, Traders, Asset Managers and Vendors.

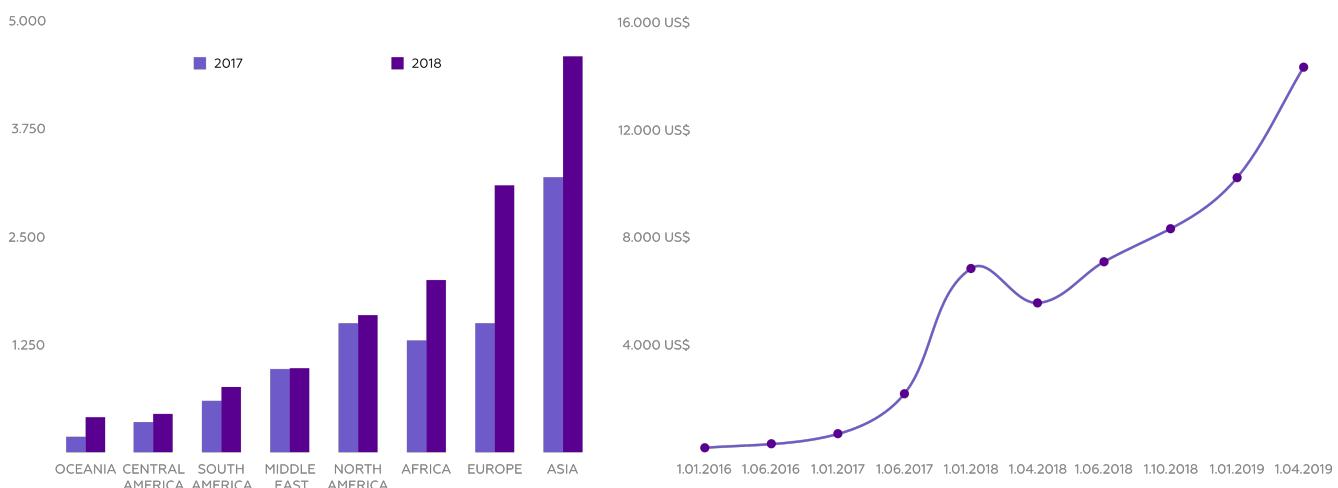

INVESTORS increase their assets automatically when syncing their wallets with Manager accounts.

MANAGERS multiply their assets through success fees paid by investors.

VENDORS introduce services to the blockchain ecosystem and to monetize traders' experience.

MARKET REVIEW

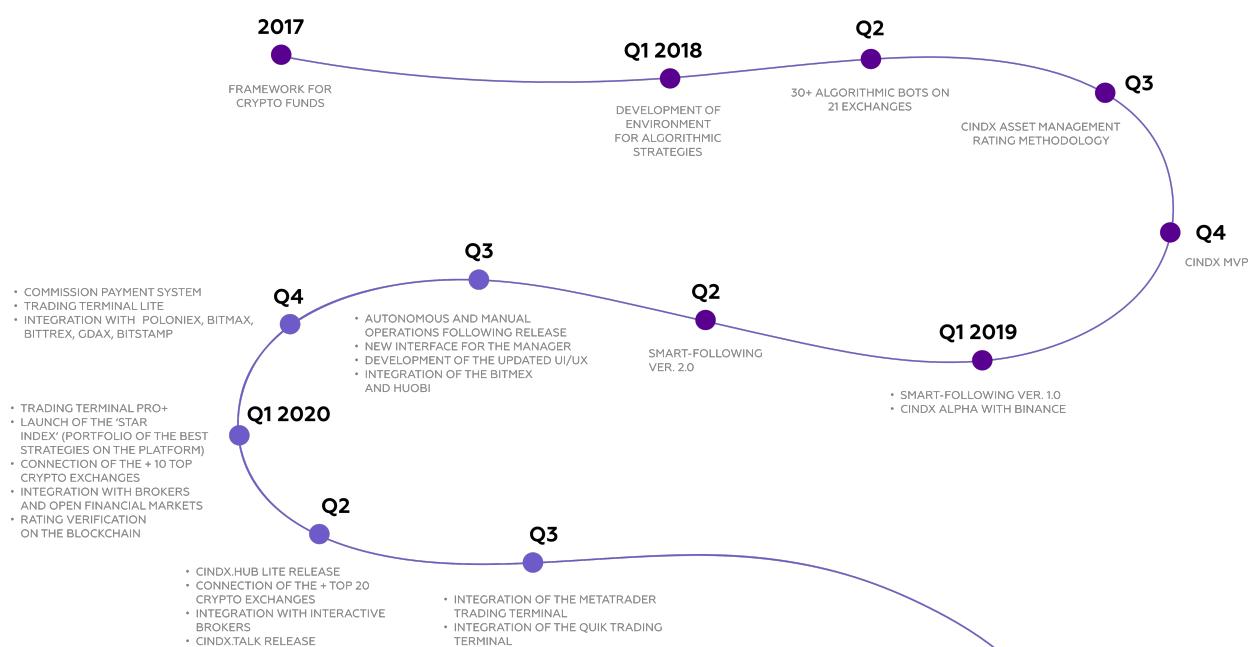

THE NUMBER OF ONLINE TRADERS BY REGION IN THOUSANDS GROWTH OF CRYPTO ASSETS UNDER MANAGEMENT, USD M

There is a growth in the number of online traders by regional segregation in 2017 and 2018. The leaders of 2018 were Asia and Europe mostly due to the advent of crypto trading, which has a low entry threshold for new participants.

There are more than 25 million potential Managers and Traders and more than 100 million potential investors.

PROJECT ROADMAP

CINXO TOKENS

The CINXO token is an option token. One calendar year after the initial public offering on exchanges, the token will be exchanged for electronic securities of CINDX AS Investkapital JSC in accordance with the EU legislation on securities.

One year prior to the exchange, the CINDX platform will quarterly spend 30% of its proceeds to buy back CINXO tokens from the market. Half will be burned, the rest will be distributed proportionally through an Airdrop among token holders who did not move their tokens from their wallet over the reporting quarter.

Holders of CINXO tokens will receive discounts of up to 50% when using the CINDX platform. After exchanging the CINXO tokens for securities, CINDX AS Investkapital JSC will distribute 30% of the company's profits to token holders on a quarterly basis, thus providing them with passive income.

The given One Pager is not a public offering and does not constitute any advice, legal or otherwise.
